

Our first team of Keith White, Paul Farrant and Iain Carmichael won the team event. This was no fluke, they were the best team there. When I say that they were up against such rivals as an East German team consisting of Möbius, Sens, and Gläser who was the ultimate winner, and a West German team of Schröder who was fourth at Augsburg last year, Gierer and Vogt the world champion, I really think we have a right to be proud of the achievement.
